## Replacement Valve Kit P/N 221093

(replaces propane valve, P/N 176681, Valve Code W9)

**Application** Propane valve P/N 176681, identified in a heater serial number as Code W9, is no longer available. Use Kit P/N 221093 as a replacement.

**Components** Kit P/N 221093 includes:

Qty	P/N	Description
1	121600	Gas Valve, Propane, VR8304H3802
1	37385	Hex Bushing, 1/2x3/4

**Instructions** The propane valve being replaced is a 1/2x1/2 valve. This replacement valve is 1/2x3/4. Install the 1/2x3/4 bushing in the 3/4 valve port before installing the valve.

Use pipe joint compound that is resistant to liquefied petroleum gas. Field-supplied gas supply piping adjustment may be required.

Leak test all joints with a leak-testing solution.
